

The Priory, Scorton - Our Environmental Charter

Here at the Priory we take our environmental responsibilities very seriously. Not only are we keen to play our part in caring about this beautiful location but we also recognise our responsibilities in conserving the global environment.

Here are a few ways in which you might help us to not only care for the environment but also reduce costs, thereby ensuring we are able to continue to offer value for money.

Conserve energy – Reduce energy by switching off lights and appliances, such as the TV, and closing windows if the heating is on.

Give the car a rest – Leave the car behind, if only for a day, walk cycle or use public transport to explore the area.

Shop Local- We are fortunate to have some fantastic producers of local food, drink and crafts in this locality. Please use local suppliers, they will give you a flavour of the area and help support local communities.

Reduce, reuse, recycle – Try to avoid overly packaged goods and say no to that extra carrier bag. Try and recycle any waste you have.

Be water and water waste wise – Please use water wisely. Turn off the tap when brushing your teeth and generally only use as much water as you need. Please do not flush any unnecessary items down the lavatory. Hang towels on the towel rail to dry rather than leave them to be changed.

Respect this area – Help us to look after our local area by not leaving litter, guarding against fire and using footpaths and cycleways responsibly.

Thank you for your cooperation, if you require any more information on any of these topics or indeed if you have any suggestions about how we might help conserve the environment, please just ask at reception.
